

Spirit of Sutterby

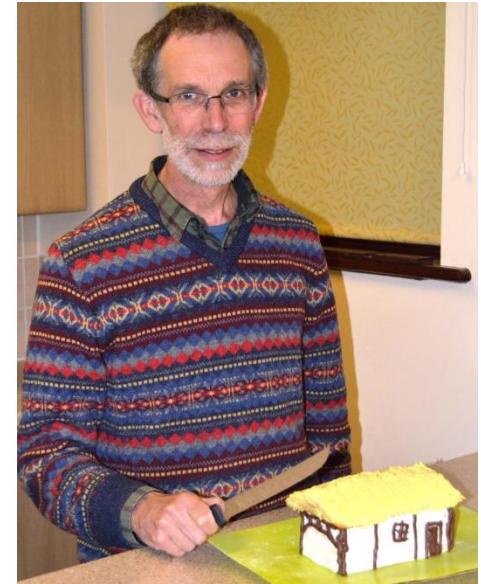

Goltho - Mediaeval timber buildings found in excavation

An illustrated talk by Dr Mark Gardiner, University Of Lincoln. A chance to learn about the type of buildings that may have graced the Sutterby landscape.

Friday 16th March 2018 Partney Village Hall, 1930hrs

Dr Mark Gardiner gave a very interesting and detailed talk on medieval buildings. It was his first talk to the Sutterby Horde and we all found it fascinating and easy to understand. He was quick to point out the shortcomings in the design of the evenings cake and how the angle of the thatched roof was not sufficient to run the rain water off!

There was a lively question and answer session after the talk. Many thanks Mark and we hope we will be having more talks from you in future.

Dr. Mark Gardiner
