

## Spirit of Sutterby

### PARISH BOUNDARY PROJECT

The Spirit of Sutterby Group have registered their interest in the CBA East Midlands Boundaries Project. The aim of the project is to map the parish boundary and identify features of interest, such as hedges, ditches, banks, trees, roads, etc.. Sutterby's results will be added to a database that will build up over time and will eventually cover the whole of the East Midlands. The first part of the project will be to survey the features of the boundary and enter them on the database. The second part will be data manipulation to give graphic illustrations of the results.

The results will also be used by The Spirit of Sutterby Group to add to the information we already have on the Natural History of Sutterby. Historical maps will be referenced to record changes in boundary features over time.

The group will liaise with Dr Matthew Godfrey, the Historic Churches Officer at the Diocese, who is keen to know more about local parish boundaries as very little research has been done in Lincolnshire.
